# Red Spot Flat Wall Paint

FOR INTERIOR SURFACES

**EIGHTEEN  
BEAUTIFUL  
COLORS TO  
SELECT FROM**

110 Delft Blue	126 Cream
111 Old Ivory	127 Richlieu Red
112 Pearl Gray	128 Emerald Green
113 Pea Green	131 Colonial Yellow
114 Peach	136 Bronze
115 Old Rose	150 Sky Blue
116 Shell Pink	156 Nile Green
122 Sea Green	160 Tan
123 Salmon	162 Tobacco Brown

Red Spot Flat is as WASHABLE as marble, while the counterfeits will not stand washing without the color washing off with the cloth or sponge, and if you rub them quickly with your finger or dry cloth, they will gloss immediately.

For use on Plastered Walls, Metal Ceilings, Woodwork, over Wall Paper, Burlap, Canvas, Galvanized Iron.

Red Spot Flat overcomes, in every way, any objections ever raised against any of the wall finishes.

It is easy to apply, has no glossy spots, shows no laps, will not sag. The same color should be used for both the first and second coat.

Is sanitary, germ and vermin-proof. Stops fire cracks and saves money in both material and cost of labor.

Red Spot Flat is sold in the standard size paint packages, from half pints to barrels.

**PRICES:—**

1 Gal.	½ Gal.	1 Qt.	1 Pt.	½ Pt.
\$3.00	\$1.60	\$0.87	\$0.47	\$0.27

**RED SPOT SIZE:—**

1 Gal.	½ Gal.	1 Qt.
\$2.33	\$1.27	\$0.67

**DIRECTIONS**

**New Work**—Plaster or cement walls should first be primed with a mixture composed of one gallon Red Spot Flat and three quarts of Red Spot Size. If smaller quantities are desired mix proportionately. Over this, two coats of the lighter shades, or one coat of the darker colors will usually give very good results. Allow at least forty-eight hours between coats.

**Old Work**—On walls or woodwork that have been painted, first remove all loose paint and see that the surface is firm, smooth and free from high gloss. Two coats of Red Spot Flat Paint as it comes from the can, will be found to give very satisfactory results.

If Red Spot Flat works heavy under the brush, thin it with some turpentine; the results will be more satisfactory.

To tint white Red Spot Flat use colors ground in oil.

For Iron Work it can be brushed, or thinned and used as dipping.

For window shades, a thin coat will make them exactly like new and the color can be changed as desired. In Yacht Work, use it inside only.

To apply over Wall Paper or Kalsomine, use it as it is, but finish will be more satisfactory if you take off the paper or kalsomine.

If more than one coat is used, allow at least 48 hours between coats.

Size New Plaster with Red Spot Wall Size.

Will cover 350 to 400 square feet two coats to the gallon on a smooth wall or surface.

Red Spot Flat Wall Paint has all the properties of paint except the high gloss which is not desired in some interior work. After it has dried it can be washed with soap and water without losing its fresh appearance.

Red Spot Wall Paint is extensively used in hospitals, kitchens, bathrooms, public buildings and all interiors where a soft-toned delicate, beautiful surface is desired.

Red Spot Flat Wall Paint is scientifically combined from the best paint pigments and varnish, containing neither water nor glue, and dries hard with a beautiful, clear, soft velvet flat finish and is unsurpassed in durability and economy.

**PLEASING COLORS FOR THE DINING ROOM. BATH ROOM, KITCHEN OR PUBLIC BUILDINGS.**

# RED SPOT PAINT & VARNISH COMPANY

## RED SPOT GLAZING LIQUID

Red Spot Glazing Liquid or Blending Liquid, as it is often called, is prepared to use in connection with Red Spot Flat finish and Red Spot Glazing Colors and Oil Colors, to produce a tiffany effect.

Gal. ½ Gal. Qts.

Price of glazing liquid...\$2.67 \$1.40 \$0.80

Directions for Using Glaze Colors, Flat Wall Finish and Glazing Liquid.

A base color is first selected from our Red Spot Wall Paint Shades. The lighter shades are used to best advantage. After the base color is thoroughly dry, apply one coat of Red Spot Glazing Liquid which has been previously tinted to the desired hue with Red Spot Glaze Colors.

Red Spot Glaze Colors come in paste form and must be reduced and thoroughly mixed with the Red Spot Glazing Liquid, which is of the proper consistency for application to the wall. The mixture can then be roughly applied with a good sized wall-brush and blended or mottled by stippling. When two or more Glaze Colors are necessary to secure a certain effect these colors should be thoroughly mixed together before the liquid is added.

To secure a lighter shade of the same tone near the top of the wall use more liquid in the mixture.

## RED SPOT FINE GLAZE COLORS

To be used in connection with Red Spot Flat Wall Paint and Red Spot glazing Liquid, and general decorating Tubes hold approximately ¼ lb.

# RED SPOT FLOOR ENAMEL

FOR  
INTERIOR  
FLOORS

Made in six colors:

340	Yellow	349	Oak
343	Deep Red	351	Silver Gray
344	Brown	352	Tan

## PRICES

Gallons	1/2 gallons	Quarts	Pints
\$3.07	\$1.60	\$0.87	\$0.49

Floors of Halls, sitting rooms, pantries, kitchens, laundries, steps and similar inside surfaces to be walked upon, should be kept bright, clean and attractive. RED SPOT Floor Enamels are made especially for this purpose. They are ready to brush on and will dry quickly with a hard, durable, lustrous finish that is easy to clean and hard to wear out. The cost is trifling, being only about six cents per square yard for two coats.

The colors are all appropriate, handsome shades and a great many pleasing combinations can be made.

Under ordinary conditions when RED SPOT Floor Enamels are applied during the evening the floor may be walked upon the next morning.

**IT STANDS  
THE WEAR**

## RED SPOT PORCH PAINT

### For Exterior Floors

RED SPOT Porch Paint is made from carefully selected materials, combined with a view to securing the greatest possible service under the most severe conditions.

It is offered as the best protective coating for porch and veranda floors and steps, decks of vessels and similar exposed surfaces that require frequent washings and receive extremely hard wear. It is prepared ready for use, spreads freely under the brush, covers perfectly, dries hard and imparts a handsome, durable glossy finish that is easy to keep clean.

Made in six colors:

01 Warm Gray	04 Dust Drab
02 Light Lead	05 Red
03 Dark Lead	06 Bright Tan

Made in two colors only.

#### Red and Green

Qts.	Pts.	1/2 Pts.
\$1.09	\$0.61	\$0.33

# SPOT-LAC VARNISH STAIN

## PARTIALLY TRANSPARENT

Spot-Lac is a special colored varnish that makes old, scratched or marred furniture or woodwork look like new with but one or two applications. It can be applied by anyone. Open the can, pour a little into a saucer or cup and apply with a varnish brush.

There are no intricate directions to follow, and there is no special mixing to be done; it is put up ready to use. Twenty-four hours after the varnish is applied the furniture or woodwork can be used.

Beautiful, highly polished furniture is generally purchased to replace the old unsightly pieces that have become scratched, worn and dirty through continual service. This replacement is expensive and oftentimes the old furniture is just as substantial as the new. Then why not replace the beautiful finish with our Spot-Lac Varnish Stain, instead of replacing the entire piece of furniture, and save a big difference

# *Beautiful homes with little work*

The Home that is truly homelike, that has the air of hospitable welcome and gracious comfort is not bought with money. This home is rather the result of loving care and careful planning.

The most important details of the perfect home are its beautiful woodwork and glistening furniture.

Spot-Lac—so easily and quickly applied—so beautiful in results—transforms the dull drab woodwork and dingy furniture and gives them new life and new beauty.

## SPOT-LAC GRAINING COMPOUND

For use as a graining liquid over Spot-Lac Ground Color. Put up in pint and quart jars only.

Colors: Light Oak and Dark Oak.

1/2 Pints .....	\$ .27
Pints, each .....	.47
Quarts, each .....	.80

*Mahogany or  
Walnut*

**Spot-Lac**

*on old tables and  
chairs make them  
look like new.*

Your interior woodwork can be given a light oak, golden oak, dark oak, mahogany, walnut, clear varnish, flat black or gloss black finish.

If the wood work is light in color, you can use light color alone; or dark, and if you wish a light color, use a coat of ground color, and apply desired color for finishing. Ground color is a yellow that completely covers the old finish. Then apply, if desired, the graining compound for the grain effect. The last coat is the Clear Varnish that gives it a beautiful finish. EVEN EXPERT PAINTERS FIND IT DIFFICULT TO DETECT THE DIFFERENCE BETWEEN SURFACES COVERED WITH SPOT-LAC AND THE ORIGINAL WOOD ITSELF.

Will cover about 600 square feet, one coat per gallon.

COLORS MADE:—

671 LIGHT OAK  
672 DARK OAK  
676 GOLDEN OAK  
673 MAHOGANY  
GLOSS BLACK

## BITUMINOUS ENAMEL

Bituminous Enamel is gas-proof, alkali-proof, acid-proof, water-proof, weather-proof, and is unaffected by 1 per cent of boiling caustic water. Bituminous Enamel will preserve iron or steel from rust or corrosion where buried under the ground.

Bituminous Enamel, as manufactured by us, is not a new thing. It has been used all over the world for many years, and holds the world's record as a preservative for iron, steel and wood, and we can prove that it has no equal as an anti-corrosive.

Bituminous Enamel is supplied ready for use; does not require heating, melting, or stirring, nor skilled labor for application. One coat is often sufficient, but two coats mean certain protection and preservation.

Samples and full information regarding the many merits of Bituminous Enamel will be sent on application.

Bituminous Enamel is non-electro-negative to iron; is positively damp-proof and rust-proof, and permanently stops oxidation. Will not chip nor flake; is not affected by extreme atmospheric changes, chemical fumes, salt water or excessive heat. Possesses great elasticity and tenacity, giving an extremely hard and impermeable surface, thus insuring plant treated with it against renewal and expensive repairs.

# RED SPOT PAINT & VARNISH COMPANY

## RED SPOT PLASTIC ROOF CEMENT

### A Heavy Black Asbestos Paint

## RED SPOT LIQUID ROOF CEMENT

Red Spot Liquid Roof Cement may be applied with a stiff brush instead of a trowel. It is especially adapted to gutters, valleys, and for re-coating worn roofs, either composition, tin or iron. It will make your roof leak-proof for many years. There is where it differs from various paints and compositions which give protection for a season or a year. It is vastly superior and cheaper because it forms a thick rubber-like covering which refuses to check or leak, and it is long-lived and satisfactory always. It is needed on both good and bad roofs. It protects a good roof—it stops leaks as soon as they appear—it makes old leaky roofs serviceable for years, and thus saves the great cost of a new roof. Apply Red Spot Plastic Roof Cement on bad spots, and then cover over entire surface with Red Spot Liquid Roof Cement. For composition, tin, gravel and canvas roofs of houses, factories, barns, garages, etc.

A very heavy black paste paint. May be used to repair around Chimneys, Flashings, Skylights, Cornices and Large Holes. This material is also used to cover entire roofs, or to coat over old worn roofs. It should be spread on about one-quarter inch to three-eighths inch thick. Roofs repaired in this way and then painted over with RED SPOT LIQUID ROOF CEMENT will last for years.

**CONTAINER NOTE:** The easiest and quickest way to remove the cement from the container—is to order the first lot in our specially made Steel Drum with Detachable Head and Automatic Suction Faucet.

Subsequent orders can be for the material in Steel Drums with Detachable Heads—using the Automatic Faucet again and again. However, many users buy in wooden barrels.

# RED SPOT PAINT & VARNISH COMPANY

## RED SPOT ARCHITECTURAL VARNISHES

The varnish listed above, and described on the following pages are of the very best for their particular uses. In buying these products you get the best that it is possible to make.

When you see a "Red Spot" on the can it is your guarantee of quality.

This line is expressly manufactured to meet the requirements of the most particular architects and contractors. Put up especially under different names for every class of work.

### RED SPOT FLOOR VARNISH

Medium body, pale in color. Develops and preserves the natural beauty of the wood. Covers about 600 square feet to the gallon. Is extremely tough and durable. Dries dust free in six hours, to re-coat in 36, to rub in two or three days.

An advantage in using this grade in preference to other makes is that it adheres to the floor indefinitely. It will not chip or check up as others do. Each coat renews the life of the preceeding coat.

It is better not to use floor varnish over shellac, as it becomes brittle and then the floor is easily marred.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.00	\$2.05	\$1.10	\$0.60	\$0.35

### RED SPOT PINGO VARNISH

Intended to be used for every purpose, boats, wagons, doors, floors, inside and outside work of all kinds. Can be rubbed. In fact, is an all purpose varnish at the right price. Dries dust-free in twelve hours. Dries hard in thirty-six hours.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.00	\$2.05	\$1.10	\$0.60	\$0.35

### RED SPOT INSIDE SPAR

Medium body, medium in color. Develops the natural beauty of the wood and is extremely durable. Dries dust free in eight hours, to re-coat in from 36 to 48, to rub in three days.

The varnish which with proper care and if properly applied lasts as long as the house. Treat the finish as you would look after your piano and the life of it is indefinite.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$3.80	\$1.95	\$1.05	\$0.55	\$0.30

All liquid goods packed in barrels with agitator if desired for an extra charge of \$2.00.

### RED SPOT SPAR

For outside use. Especially intended for doors, store-fronts, or any exposed surface. It is pale in color, dries with a brilliant lustre and can be rubbed if desired in twenty to thirty hours.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.00	\$2.05	\$1.10	\$0.60	\$0.35

### RED SPOT LINOLEUM FINISH

Made especially for renewing and preserving linoleums, oil cloths, etc. It works freely, dries over night and is waterproof and durable.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.00	\$2.05	\$1.10	\$0.60	\$0.35

### RED SPOT WHITE MAPLE FINISHING

This is an extremely pale finishing varnish. Flows out smooth and even on the largest panels. Dries hard in 24 hours.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.65	\$2.40	\$1.25	\$0.65	\$0.35

### RED SPOT FURNITURE RUBBING VARNISH

Medium body pale in color. Used on furniture, cabinet and interior wood work. Dries dust free in four hours, re-coat in thirty-six hours, rub and polish in forty-eight hours. An excellent varnish for the refinishing of antique or modern furniture. It may be left in the gloss.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.00	\$2.05	\$1.10	\$0.60	\$0.35

### RED SPOT PALE RUBBING AND POLISHING

Produces an elegant finish of great durability over either natural wood, grained or painted surfaces. Dries free from dust in six to eight hours, and can be rubbed within three days. Can also be given a brilliant piano polish.

Gal.	½ Gal.	Qts.	Pts.
\$4.65	\$2.40	\$1.25	\$0.65

### RED SPOT SEAT VARNISH

An excellent water-proof varnish for all classes of interior trim. Is intended for a high gloss finish and if necessary will stand rubbing. Dries hard over night.

This finish is especially adapted for use on church pews, school and porch furniture, chairs, settees, etc.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$3.80	\$1.95	\$1.05	\$0.55	\$0.30

### RED SPOT EXTRA COACH

A high quality but economical varnish for interior woodwork, cabinet mantels and furniture. Is of good body, light in color, dries free from dust in six to eight hours and can be left in the gloss or rubbed to a dead finish. Has rich, brilliant lustre, and is very durable. Will not mar white.

## RED SPOT ARCHITECTURAL VARNISHES

### RED SPOT FLAT VARNISH

This varnish is water-proof and dries to a beautiful velvet flat finish.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$3.33	\$1.73	\$0.92	\$0.51	\$0.29

### RED SPOT SEMI-FLAT VARNISH

This varnish is the same as above except it dries with a little more gloss giving a very close match to rubbed effect.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$3.33	\$1.73	\$0.92	\$0.51	\$0.29

### RED SPOT LIQUID PIGMENT FILLER

A high grade varnish and pigment filler for use on new work for first coat and on close grain wood as a filler. Dries very quickly and sandpapers over night. Produces a perfectly smooth surface for the finishing coats, and where used with other varnish gives an unequalled depth of finish.

Gal.	½ Gal.	Qts.	Pts.
\$2.35	\$1.25	\$0.70	\$0.40

### RED SPOT LIGHT HARD OIL

A very high grade varnish, light in color, and when used in connection with our Light Liquid Wood Filler is highly satisfactory for two coat work. While it can be rubbed, it is usually left in the gloss. Dries dust proof in from four to six hours, and may be rubbed in from ten to thirty hours. It will not mar nor scratch, and is noted for its toughness and durability.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$2.45	\$1.30	\$0.70	\$0.40	\$0.25

### RED SPOT EXTRA DAMAR

Made of selected Batavia gum and recommended for use where a strictly high grade article is required. When mixed with zinc white for making enamels it dries hard with a high gloss or can be rubbed to egg-shell finish. Works freely under brush and will never change color.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.05	\$2.40	\$1.25	\$0.65	\$0.35

### RED SPOT PURE ORANGE SHELLAC

In making this grade we use only high grade orange shellac and pure denatured alcohol, thus making a perfect product.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$4.93	\$2.53	\$1.33	\$0.73	\$0.40

### RED SPOT PURE WHITE SHELLAC

Nothing but pure denatured alcohol and bleached shellac used in the manufacture of these goods.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$5.27	\$2.71	\$1.41	\$0.77	\$0.40

### RED SPOT INDUSTRIAL SUBSTITUTE SHELLAC

This product is an excellent substitute for shellac. It has been used successfully by the industrial trade for years. Due to the continued high price of pure shellac we offer this low in price substitute with a guarantee of its excellence.

#### Colors Clear and Orange

Gals.	½ Gals.	Qts.
\$2.33	\$1.24	\$0.68

### EX-CEL-LAC

#### Directions.

This is not a shellac. But is a spirit varnish. Can be used in every way for which shellac is intended; also for many other purposes. Can be used as first coater over all stains. Will not discolor any stain, such as mahogany, weathered oak, greens and blacks. Ex-cel-lac is by far the best first coater for all interior woodwork and floors. Caution—thin with alcohol only.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$2.65	\$1.40	\$0.75	\$0.40	\$0.25

### RED SPOT HEAT-PROOF BRONZING LIQUID

This liquid is made to withstand great heat. It may be used with excellent results on stoves and stove pipes, etc.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$1.85	\$1.00	\$0.55	\$0.30	\$0.20

### RED SPOT BANANA BRONZING LIQUID

This liquid is made to stand outside exposure as well as inside work when mixed with bronze or aluminum powder. Can be applied on metal or other surfaces with equally good results.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$2.95	\$1.55	\$0.80	\$0.45	\$0.25

### RED SPOT WHITE DRYER

Very pale and a good dryer. Especially adapted for delicate colors. Will mix with oil in any proportion.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$2.00	\$1.05	\$0.60	\$0.30	\$0.20

### RED SPOT TURPENTINE JAPAN DRYER

An absolutely reliable, uniform Japan for use in all seasons of the year. Will dry and mix with linseed oil in any proportion and work satisfactory at all seasons of the year. May be used with any kind of paint or primer, and in proper proportions does not detract from durability of paint.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$2.00	\$1.05	\$0.60	\$0.30	\$0.20

### RED SPOT GOLD SIZE JAPAN

This is such an exceedingly pale Japan Dryer that it will not darken even the lightest colors. Also highly recommended as a vehicle for mixing rough stuff.

Gal.	½ Gal.	Qts.	Pts.
\$3.70	\$1.90	\$1.00	\$0.55

### RED SPOT T. ASPHALTUM

Adapted for general work. Black in color.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$1.65	\$0.90	\$0.50	\$0.30	\$0.20

### RED SPOT BAKING ENAMEL

A splendid enamel for all ordinary baking purposes; has brilliant lustre. Especially adapted for use on fenders, crates, hot-air registers and iron work.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$2.35	\$1.25	\$0.70	\$0.40	\$0.25

### RED SPOT DEAD BLACK

Dries with a dull or velvet finish. Especially adapted to fire fronts, fenders, chandeliers, plate racks. Produces a wrought iron finish.

Gal.	½ Gal.	Qts.	Pts.	½ Pts.
\$2.67	\$1.40	\$0.75	\$0.40	\$0.25

# RED SPOT PAINT & VARNISH COMPANY

## RED SPOT AUTOMOBILE VARNISHES

### RED SPOT DURABLE CHASSIS AND GEAR FINISHING VARNISH

This, as the name implies, is a Chassis and Gear Finishing Varnish. It is heavy bodied, easy working and dries fairly hard over night.

Gal.	½ Gal.	Qts.	Pts.
\$4.70	\$2.40	\$1.25	\$0.70

### RED SPOT QUICK CHASSIS AND GEAR FINISHING VARNISH

An easy-working varnish that dries and hardens well over night. An ideal varnish for work that must shine with quality although produced rapidly.

Gal.	½ Gal.	Qts.	Pts.
\$4.35	\$2.25	\$1.20	\$0.65

### RED SPOT PALE CHASSIS AND GEAR FINISHING VARNISH

This is a splendid heavy-bodied, extremely pale Chassis Finishing Varnish, which under normal shop and temperature conditions dries hard over night. Where baking methods are used it will be found a thoroughly satisfactory and desirable finishing varnish.

Gal.	½ Gal.	Qts.	Pts.
\$5.00	\$2.60	\$1.35	\$0.70

### WAGON VARNISH

This is a high grade varnish prepared especially to be used on wagons. It has excellent wearing qualities.

Gal.	½ Gal.	Qts.	Pts.
\$3.33	\$1.73	\$0.92	\$0.51

### RED SPOT BLACK FINISHING VARNISH

A dense, solid-covering, black finishing varnish that dries hard over night and gives a beautiful, rich lustre that is very durable. One coat is sufficient over dark undercoat. It is especially adapted for work that must be turned out quickly and economically.

Gal.	½ Gal.	Qts.	Pts.
\$4.70	\$2.40	\$1.25	\$0.70

### RED SPOT BLACK RUBBING VARNISH

This is a deep jet black and is our standard grade of this color. Works freely and can be rubbed in twenty-four hours.

Gal.	½ Gal.	Qts.	Pts.
\$4.00	\$2.05	\$1.10	\$0.60

### RED SPOT COACH JAPAN

An excellent product especially prepared for mixing with colors and paints to hasten their drying and hardening. Also recommended for striping, gilding, lettering, etc. Very widely used by concerns of highest reputation.

Gal.	½ Gal.	Qts.	Pts.
\$4.00	\$2.05	\$1.10	\$0.60

### RED SPOT RUBBER BAKING JAPAN

This Black Japan may be brushed or dipped. It is intended as a first coater over which the Gloss Baking Japan is applied. Two and one-half to three hours at 400 degrees is the correct exposure.

Gallons	½ Gallons
\$2.70	\$1.40

### RED SPOT GLOSS BAKING JAPAN

This Black Japan may be brushed or dipped. It is intended to be used over Rubber Baking Japan. Two and one-half to three hours at 400 degrees is the correct exposure.

Gallons	½ Gallons
\$2.70	\$1.40

### RED SPOT WEARING BODY VARNISH

This is the very highest quality of automobile finishing varnish possible to produce. It is pale, heavy-bodied, easy-working, long-flowing, and is sufficiently slow in setting to accomplish a perfect surface on the largest panels. For lustre and durability it has no equal.

Gal.	½ Gal.	Qts.	Pts.
\$5.65	\$2.90	\$1.50	\$0.80

### RED SPOT PALE BODY VARNISH

This varnish possesses excellent working and flowing qualities, but being considerably paler in color it is especially adapted to the light colored work such as creams, yellows, grays, etc.

Gal.	½ Gal.	Qts.	Pts.
\$6.00	\$3.05	\$1.60	\$0.85

### RED SPOT HEAT PROOF HOOD FINISHING VARNISH

An excellent varnish for all finishing work, but is especially adapted to the hood and fenders.

Gal.	½ Gal.	Qts.	Pts.
\$7.35	\$3.75	\$1.90	\$1.00

### RED SPOT QUICK RUBBING VARNISH

This is our most popular grade of the quicker types of rubbing varnishes. This varnish will rub in twenty-four hours.

Gal.	½ Gal.	Qts.	Pts.
\$4.00	\$2.05	\$1.10	\$0.60

### RED SPOT FORTY-EIGHT HOUR RUBBING VARNISH

It is easy working and long flowing, mixes with all colors, dries dust-free in a few hours, and will be ready for rubbing in thirty-six to forty-eight hours.

Gal.	½ Gal.	Qts.	Pts.
\$4.70	\$2.40	\$1.25	\$0.70

### RED SPOT ROUGH STUFF (Dark, Light and White)

This is an elastic, close and non-porous rough stuff, being supplied in paste form only. The white is an excellent product for white or very light colored work.

25-Lb Can.	1 to 5-Lb. Can.
Per Cwt.	Per Cwt.
\$27.00	\$33.00

### RED SPOT SANDOFF

To be used for filling in and surfacing over primer and all metals or wood, on body, wheels or chassis.

Gals.	½ Gals.	Qts.	Pts.
\$4.00	\$2.05	\$1.10	\$0.60

### RED SPOT METAL PRIMER

Especially prepared for use on Aluminum, Steel and Iron. Brush thoroughly. Can be thinned with turpentine if desired. Allow twenty-four to thirty-six hours for drying.

Gal.	½ Gal.	Qts.	Pts.
\$3.70	\$1.90	\$1.00	\$0.55

Made in gray only.

# RED SPOT Kalsomine

FOR INTERIOR DECORATION

Red Spot Kalsomine is to be used on all interior wall surfaces.

A product of remarkable opacity, particularly suited for the highest type of residential and apartment decoration.

Red Spot Kalsomine in white and tints. Comes prepared for use in dry powdered form, requiring only the mixing with either cold or warm water.

## Directions.

To five measures of Red Spot White Kalsomine add three measures of hot or cold water. Stir until free from lumps, after which add additional water until of proper consistency.

Five pounds will cover from 250 to 500 square feet, depending on the porosity of the surface to be coated.

# Red Spot Parmolite

A Semi Gloss Wall Finish

Parmolite possesses many properties which make it desirable for both the home, where beauty is essential, and for the larger building, where economy and utility rule.

**Economical**—Requires only two coats and covers a larger surface per gallon. Easy working properties also reduce the cost of painting with Parmolite by saving in labor. Parmolite does not soil as readily as lead and oil and other paints, but on the other hand resists dirt.

**Durable**—Parmolite is an oil paint, made from the best materials. It will outwear paint thinned with an excessive amount turpentine thinners.

**Beauty that Endures**—Parmolite holds its beautiful finish, and when soiled can be washed.

**Sanitary**—Parmolite is non-porous. No poisonous ingredients. Will not absorb germs or dust, sorb germs or dust.

**Parmolite Thinner**—The thinner should be mixed with the first coat of wall finish so as to stop suction and prevent the lime from burning through. No sizing of the wall is required.

**Washable**—The hard, glossy finish of Parmolite, which closely resembles tile or porcelain, may be cleaned repeatedly with soap and water. Being non-porous, the dirt is washed off—not in.

**Satisfaction**—Parmolite does not show laps, but on the other hand it is easy to obtain a beautiful, uniform finish where it is used.

## RED SPOT FACTORY WHITE

Unlike oil paint or whitewash, will not discolor. It is fire-proof, vermin-proof and leaves no bad odor. Not a calcimine, as it contains no glue to cause it to absorb moisture and flake or powder off.

It is an intense white of great opacity and has remarkable covering or hiding qualities. Five pounds make one gallon of paint, which gives you an idea of its economy, its cost being only a fraction of that of other coatings with equal lasting qualities.

Adheres perfectly to any solid surface, such as wood, brick, cement, stone, iron or tile.

## How to Mix and Apply.

Red Spot Factory White is strongly adhesive; therefore, it must be applied to a clean surface. Remove all loose scales, particles of limewash or oil paint—the same as if you intended to paint with oil paint.

Add one measure of cold water to two measures of dry powder, stir thoroughly until the mixture is smooth and free from lumps. Then thin down with the addition of cold water until the consistency of thick cream. Care should be taken not to mix the paint too thin.

One pound will cover from 40 to 75 square feet, according to the surface to be covered.

Red Spot Factory White gives best results if used the same day as when mixed.

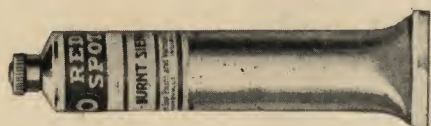

Packed in paper-lined barrels of 400 pounds, half-barrels of 200 pounds, 100 and 50-pound drums.

# RED SPOT PAINT & VARNISH COMPANY

## The White That Prolongs Daylight

It is a sanitary Enamel Paint for interiors of factories and mills, which in addition to being an ideal Sanitary Enamel Paint for walls, ceilings, and woodwork, reflects sunlight into all dark corners, thereby giving additional working space; also making work-rooms bright and cheerful—employees are more contented, thereby turning out more and better work.

The cost of Bril-Lite can soon be made by the saving of artificial light expense.

"Bril-Lite" is far superior to other Enamel Paints.

"Bril-Lite" by reason of its great covering capacity and due to the fact that it can be applied to any surface and costs less than other Enamel Paints.

"Bril-Lite" is not only a factory Enamel Paint but is an excellent interior Enamel for any part of the home. It is easily applied and dries in 24 to 36 hours. On new work we advise the use of one or two coats of Flat and finished with the Gloss. If a dull finish is desired, two or three coats of the Flat is all that is necessary.

"Bril-Lite" can be tinted the same as any oil paint, should a light tint be needed.

### RED SPOT ALUMINUM PAINT

### RED SPOT EBONITE ROOF PAINT

**STERLING:** This quality of Red Spot Aluminum Paint is made to meet the market for a strictly pure aluminum tank paint for all exterior or interior surfaces. It will wear longer than any known paint on exterior surfaces, is therefore an economical piece of goods.

Gals.	½ Gals.	Qts.
\$5.00	\$2.60	\$1.33

**ALLOY:** This quality of Red Spot Aluminum Paint is made along the same lines as our Sterling, with the exception that other metals are used to an extent, which changes the color slightly and allows us to make a reduced price. The quality, however, is excellent and will give lasting satisfaction. It is recommended for the same uses as our Sterling Aluminum, including especially exterior tank work.

Gals.	½ Gals.	Qts.
\$3.80	\$2.00	\$1.07

This is an excellent quality, heavy, black Rubberoid Roofing Paint. It contains no fiber, sand, or other loaders. It is made on a pure asphalt base and is free from tar. In using this paint, you eliminate a lot of the common objections to the general run of black roof paints. It expands and contracts freely with the different weather conditions, will not crack in the coldest weather, and will not run on the hottest day. It is made of the same basic material that all high-grade roofing manufacturers use in their products; therefore, it is simply a reviver to all Rubberoid Roofings.

# RED SPOT PAINT & VARNISH COMPANY

## RED SPOT BRONZE ENAMELS

### RED SPOT PALE GOLD

We particularly recommend this specialty to the trade. It is an excellent seller and gives satisfaction to users. Put up in a combination can as illustrated, the powder below and the liquid on top. When being used it takes but a minute to remove the lids and pour the powder into the liquid. This results in a perfect mixture for producing the most brilliant gold finish, on any surface whether metal, wood, plaster or china. Sold in the following sizes: (Size number indicates retail selling price—Size 25 retails for 25c).

## GOTHIC Specialties

### GOTHIC WAX

This wax represents a standard of quality that makes it a leader as a polish. An especially designed can is used that is flat and shallow allowing the wax to be removed freely. It is used to polish floors, woodwork, furniture, automobiles, linoleums and leather goods.

#### Covering Capacity

1 Pound Size Can 300 Sq. Feet.

	1 Lb.	2 Lb.	4 Lb.	100 Lb.
	Per Can	Per Can	Per Can	Ass't Case
No in Case	100	50	25	
No. in Ass't Case	64	10	4	
	\$0.67	\$1.20	\$2.13	\$60.00

When ordered in full case lots a discount of 5% will be allowed. This does not apply to case assortment.

### GOTHIC LIQUID WAX

Gothic Liquid Wax is produced by using the same raw materials as those employed in the manufacture of floor wax. However, these are combined in such a way that it produces a liquid. May be used to polish any surface whether inside or out. Where a liquid polish is desired, no better can be found.

#### Covering Capacity

One quart cleans and polishes 2,500 square feet.

	Each
Pints	\$0.53
Quarts	.93

### GOTHIC AUTOMOBILE AND FURNITURE POLISH

This polish is prepared in such a way that it serves both as a polish and a cleaner. There is absolutely no grease about this polish. It will remove old, inferior polishes that have a petroleum base and at the same time impart to the surface a brilliant luster. It leaves a hard, smooth surface that does not collect dust. No polish can do the impossible but this one will come near to it.

	Per Doz.
8-oz. bottles	\$2.67
16-oz. bottles	5.33

### GOTHIC AUTO WAX

For polishing and bringing back original lustre. Does not contain any ingredient to injure the varnish. Does not leave the surface oily or finger marks.

Per Dozen	5.60
-----------	------

### GOTHIC METAL POLISH

Gothic Metal Polish is the best for gold, silver, brass, copper or iron. This polish is one of the shining stars in the Gothic line, and is a polish which will not injure the metal to which it is applied.

# RED SPOT PAINT & VARNISH COMPANY

## DEER HEAD VARNISHES

### DEER HEAD ELASTIC FLOOR VARNISH

A superior finish for hard or soft wood floors, also linoleums; it is very pale in color and is very durable. Sets free from dust in four hours, and dries to walk on in 18 to 20 hours.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$3.15	\$1.65	\$0.90	\$0.50	\$0.30

### DEER HEAD 1904 INTERIOR FINISH

Especially adapted for fine interior wood finishing; will produce either a lustre, dull or polish finish. Dries free from dust in four to six hours, and can be rubbed in three days. Where a polish finish is desired, allow to stand 24 hours after rubbing.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$3.00	\$1.58	\$0.84	\$0.47	\$0.27

### DEER HEAD DURABLE WATER-PROOF SPAR

An excellent varnish for exterior exposure, carefully made from selected materials to meet the requirements demanded, and can be relied upon to give perfect satisfaction upon all exposed surfaces, such as spars, decks and cabins, of steamships and vessels, storefronts, vestibules and similar exposed surfaces.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$3.20	\$1.70	\$0.90	\$0.50	\$0.30

### DEER HEAD INSIDE COACH

A quicker drying varnish than our Durable Coach and is slightly darker in color. A good practical inside varnish. Dries hard over night.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$1.35	\$0.75	\$0.40	\$0.25	\$0.15

### DEER HEAD SPECIAL FURNITURE (Or Copal)

For furniture and inside work. Has good body and gloss. Dries hard in from 12 to 15 hours.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$1.70	\$0.90	\$0.50	\$0.30	\$0.20

### DEER HEAD DURABLE COACH

This varnish is pale in color, works freely under the brush, dries free from dust in four to six hours, and can be rubbed in forty-eight hours. For use on natural wood, painted or grained surfaces, interior doors, casings.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$2.00	\$1.05	\$0.60	\$0.30	\$0.20

### DEER HEAD LIGHT HARD OIL FINISH

Light in color, has good body, flows freely and dries with a brilliant lustre.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$2.20	\$1.20	\$0.65	\$0.35	\$0.25

### SIKOLAC LIQUID WOOD FILLER

For filling and surfacing all close grained woods, such as pine poplar, sycamore, birch, whitewood, cherry, maple, spruce, etc., at a single operation. It is a perfect substitute for shellac, covering about twice as much surface.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$2.00	\$1.07	\$0.60		

### DEER HEAD SHELLAC COMOUND "WHITE" AND "ORANGE"

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
	\$3.67	\$1.91	\$1.01	\$ .57	\$ .32

### DEER HEAD OIL SHELLAC

An economical filler and surfacer for cross-grained woods. It is light in color, works easily and dries to stand over night. Costs less than shellac, while it covers considerably more surface.

	Gal.	½ Gal.	Qts.
Each .....	\$2.20	\$1.20	\$0.65

### DEER HEAD B. DRYER

Medium priced article for general use. Mixes readily.

	Gal.	½ Gal.	Qts.	Pts.
Each .....	\$1.33	\$0.75	\$0.40	\$0.25

### DEER HEAD FILLO-LAC

For fine work on close fiber woods this Filler is unsurpassed, as it contains no pigment; it is transparent, thereby preserving the natural beauty of the grain. It sandpapers readily and does not settle.

	Gal.	½ Gal.	Qts.	Pts.
Each .....	\$1.70	\$0.90	\$0.50	\$0.30

### DEER HEAD BRONZING LIQUID

This is light in color, carries the bronze evenly, producing a very smooth surface; is not affected by heat. For radiators, hot-air furnaces, etc.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$1.70	\$0.90	\$0.50	\$0.30	\$0.20

### DEER HEAD TURP. LIQUID DRYER

A strong dryer, suitable for house painters' use. Mixes readily with oil and can be relied on as a very fine article for the money.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$1.70	\$0.90	\$0.50	\$0.30	\$0.20

### DEER HEAD "B" ASPHALTUM

For same use as Baking Enamel, but on quick, cheap work.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$1.15	\$0.65	\$0.40	\$0.25	\$0.15

### DEER HEAD GRATE VARNISH

A black quick-drying varnish of good body and gloss.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$1.70	\$0.90	\$0.50	\$0.30	\$0.20

### DEER HEAD SUBSTITUTE SHELLAC

White and Orange

This material, as the name implies, is a high grade shellac substitute. It is made from a specially patented gum that is cut in pure alcohol. It will be found that this substitute shellac is especially adapted to interior finishing.

	Gal.	½ Gal.	Qts.	Pts.	½ Pts.
Each .....	\$3.00	\$1.57	\$0.85	\$0.48	\$0.27

# RED SPOT PAINT & VARNISH COMPANY

## LEADS

### RED SPOT 80-20 WHITE LEAD

Red Spot 80-20 White Lead is a combination produced by the use of 80% Pure Carbonate of Lead or Dutch Process and 20% Pure Oxide of Zinc. It is a well known fact by painting authorities that the combination of Zinc and White Lead makes smoother and more enamel like finish than White Lead when used straight. It will protect the surface over which it is applied to a greater degree, excluding all moisture and will clean much easier than the ordinary straight White Lead. This is strictly a high grade product and is guaranteed to be absolutely pure.

	100 Lb. Kegs	50 & 25 Lb. Kegs	12½ Lb. Kegs
Per Cwt. ....	\$29.00	\$29.50	\$30.00

### RED SPOT COMBINATION WHITE LEAD

Red Spot Combination White Lead is produced by the combination of Pure Old Dutch Process Carbonate of Lead, Pure Oxide of Zinc and other pigments. It is a perfectly balanced piece of goods and represents a combination for the painter that will produce lasting satisfaction. This is in every sense of the word a high grade article and is offered with a guaranty of its excellency which includes covering capacity, wearing qualities, etc.

	100 Lb. Kegs	50 & 25 Lb. Kegs	12½ Lb. Kegs
Per Cwt. ....	\$27.00	\$27.50	\$28.00

### RED SPOT LIQUID BLUE LEAD

Picher Sublimed Blue Lead in Oil is a fume product, made by subliming the lead ore, galena, (lead sulphide) and collecting the fumes. The pigment thus produced is a slate gray powder of extreme fineness, which when mixed with pure linseed oil produces a paint of remarkable hiding power and exceptional brushing and spreading qualities which will endure years of exposure in service without cracking, checking or peeling.

Every painter knows the tendency of some rust-proofing paints to harden or "liver" in the container if allowed to stand after the paint is mixed. Once a paint has so hardened, it cannot be restored, but must be thrown away. This, of course, involves not only the waste of material, but the painter's time. The avoidance of such waste imposes the inconvenience of mixing up a batch of paint fresh each day.

All such annoyance and waste is done away with by the use of Picher Sublimed Blue Lead; it can be mixed with oil and allowed to stand indefinitely, yet it will not harden in the container. This comparatively new pigment will cover twice as much surface as the ordinary rust preventative paint. It breaks up easily; flows out smoothly and lasts indefinitely.

 25-pound lots ..... .03 per pound net advance over net barrel price

### MORTAR COLOR

#### Directions for the Mixing and Use of MORTAR COLORS

Avoid careless mixing.  
 Weigh or measure carefully color, sand, lime or cement before mixing.  
 Mix thoroughly, dry, before adding water.  
 Do not use color in hot lime, but let lime cool at least forty-eight hours.  
 See that mortar is mixed to same stiffness through the job and do not rake joints when mortar is too wet.  
 Let colored mortar lay as long as possible before being used, and use in fairly stiff consistency.

Figure about one hundred pounds color per one thousand bricks for one-half inch joint work, or one pound color to three pounds lime or cement.

Before using colored mortar make up a small panel, well backed, and let dry to determine color.

All these precautions necessary where uniform colored mortar work is required.

25-Lb. Lots—\$0.03 per pound net advance over net barrel price.

All quantities less than 25 pounds will be charged at the "Small Lot" price.

# WETORDRY

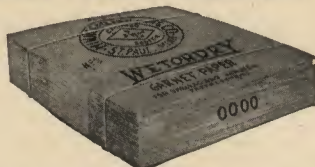

ETORDRY waterproof sandpaper has been waterproofed to permit sanding painted, varnished or enameled surfaces with water.

The sand side or cutting surface is waterproofed and will not shed mineral under water.

The back is waterproofed and will not roll up and pulpify under water.

There are three kinds of Wetordry waterproof sandpaper.

## WETORDRY GARNET POLISHING PAPER

This is especially adapted for use in Automobile Repaint Shops.

Grit No.	Per Quire of 24 Sheets	Per Half Ream of 10 Quires
7-0	\$1.12	\$10.50
6-0	\$1.12	\$10.50
5-0	1.12	10.50
4-0	1.22	11.26
3-0	1.32	12.32
2-0	1.44	13.50

## WETORDRY FLINT PAPER

This is especially adapted for use by the Painter and Decorator.

Grit No.	Per Quire of 24 Sheets	Per Half Ream of 10 Quires
2-0	\$1.12	\$10.50
1-0	1.12	10.50
1/2	1.22	11.14
1	1.36	12.75
1 1/2	1.48	13.88

## TWO ARBITRARY RULES

But two rules—arbitrary we call them because they must be obeyed for best results—are as follows:

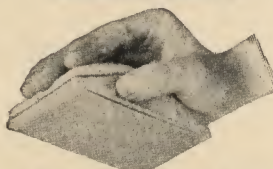

### 1. Use plenty of water.

It prevents sanding dust—the greatest menace to the painter's health. It lubricates the cutting, prevents scratching, and hardens the surface being sanded. It cleans the grit, thereby making a single sheet of Wetordry outlast in some instances a dozen sheets of ordinary sandpaper.

### 2. Mount Wetordry properly.

Whether you prefer the Block and Pad, shown, or a block and pad of your own device, mount the paper on some form of block for rough stuff or surfacer, and some form of pad for varnish and enamel.

## THE WETORDRY ROUGH STUFF RUBBING BLOCK

### Rubber Roughstuff Block

This is a solid rubber block, very pliable, with a flat undersurface rounded slightly at the extreme ends, and an arched upper surface having slits to receive the ends of the Wetordry strip. The flatness of the undersurface gives the leveling action produced by a brick gang, with several advantages over the latter. In the first place, the paper cuts more rapidly than the gang. Then, too, scratches sometimes caused

by corners of individual stones in the gang cannot occur with Wetordry used on this rubber block.

The block is designed for use on rough stuff or surfacers and is substantial enough to give the proper support to the paper. At the same time, it is very pliable and adapts itself to rounding surfaces with more true flexibility than the brick or pumice gang.

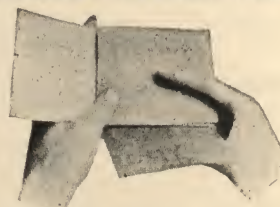

### Mounting Wetordry on Block

This block saves time. Any novice can mount the paper properly with no delay, whereas it takes skill and considerable time to assemble a gang. The rubber conforms to curved surfaces with more true flexibility than the gang, with, however, sufficient rigidity to slice nibs and runs to a plate glass level. It is shaped to the palm of the operator's hand, resting it and keeping it from contact with the abrasive.

Price	Each	Per Doz.
	\$1.70	\$19.00

## THE WETORDRY VARNISH RUBBING PAD

### Mounting Wetordry on Pad

This pad is designed to eliminate highlights caused by heavier pressure of the abrasive surface at finger tips. It is very simple in construction consisting of a layer of felt doubled to cover to half its length a strip of canvas 9x3 1/2 inches. The uncovered half of the canvas folds back as a protection to the operator's hand after Wetordry has been wrapped about the felt. Its size is such that by dividing lengthwise a 9x11 sheet of Wetordry, every bit of the cutting surface of the paper can be used. There is no waste.

### Felt Varnish Pad

The pad is of felt and gives all the "touch" necessary on color and rubbing varnish. Use of the block or pad on every coat, supplemented by the use of plenty of water to eliminate dust and mellow the cutting, gives a succession of plate-glass surfaces and a consequent foundation so nearly perfect that the final varnish will shimmer.

Price	Each	Per Doz.
	\$0.30	\$3.00

# RED SPOT PAINT & VARNISH COMPANY

## WETORDRY IN AUTOMOBILE WORK

### The Repaint Shop

**B**EAR in mind that Wetordry is adaptable to all rubbing operations of the repainter. It is not necessary to use ordinary sand-paper dipped in oil on the undercoats nor pumice on the rubbing varnish. Wetordry in appropriate grit numbers can be used on Rough Stuff, sand surfacer, color varnish, and rubbing varnish, including the final rub. Remember also that Wetordry is not only adaptable but best.

**Avoid the use of oil.** It has no advantage over water, and does have several disadvantages. In the first place, water hardens varnish and oil softens it. It is possible therefore to water-sand varnish while it is still a trifle "green" several hours earlier than it could be safely oil-sanded. Even more important than this is the fact that traces of oil often remain on the work after oil-sanding, and soften the varnish of the next coat. Where this occurs, the result is not noticeable at first, but develops a premature dullness and breakdown of the finish later on.

Pumice is much slower than Wetordry for three reasons: 1st. It gives a rolling abrasion, whereas wetordry grit is fixed and does not "give". 2nd. Pumice-rubbed varnish must be well set before rubbing; whereas Wetordry can be used while the varnish is still "green". 3rd. Because of the time required to clean up pumice slush. Close examination will also reveal the fact that pumice works loosely around nibs and runs while Wetordry slices them off even with the rest of the surface.

## WETORDRY GARNET FINISHING PAPER

We unhesitatingly recommend Garnet as the most suitable and economical mineral for use in repaint shops. It has the body and keenness to produce rapid work. In point of finish, it gives unexcelled results.

### GETTING A FOUNDATION

On Rough Stuff and sand surfacers 2-0 Wetordry Garnet is generally preferred except where there is to be only one or two coats of surfacer. In this case 3-0, while it cuts less rapidly, avoids danger of cutting through. The use of water eliminates the dust and speeds the cutting.

On old varnish that is not being removed use either 3-0 or 4-0 on the block, depending on conditions. Use water.

### COLOR VARNISH

5-0 Wetordry Garnet appears to be the most successful grit, although 4-0 is sometimes used where the relative hardness of the varnish and quality of finish make this possible. **Ordinarily 5-0 assures best results.** Use the felt pad, holding it in one hand and a sponge in the other. Dip and swish frequently in water, and clean up as you go rather than waiting until the job is entirely rubbed.

### RUBBING VARNISH

On rubbing varnish 6-0, used on the pad with plenty of water, gives a perfect finish. Some use 5-0 or even 4-0 followed by a delicate polishing off with 6-0. We do not recommend this as we do not consider it equal to the 6-0 alone for rubbing varnish, although it undoubtedly is much more rapid.

### ENAMEL

Owing to its hardness, enamel should be rubbed with 6-0 rather than 7-0 to obtain speed. It is suggested, however, that where 6-0 is used it be followed with a delicate retouching of 7-0 to eliminate tiny ridges which might be brought to light by the final coat.

## WETORDRY FOR THE MASTER AND JOURNEYMAN PAINTER

### WETORDRY FLINT PAPER

**W**ETORDRY FLINT PAPER is the member of the Wetordry family best suited to the needs of the painter and decorator. It is absolutely waterproof and can therefore be used to sand any coated surface with water. This use of water prevents poisonous dust—the easiest single hazard of the painting industry. Wetordry Flint Paper comes in grit numbers suitable for practically all interior or exterior sanding work from the smoothing off of old house paint to the delicate rub on an enameled panel. The finer numbers are as flexible as chamois and work nicely around irregular surfaces, producing (with water), an effect fully equal to that of pumice in half the time. Coarse numbers have the body and backing necessary for the class of work to which they would obviously be put.

### PREPARING WOODWORK FOR REVARNISHING

On hardwood floors sponge the old varnish well with a strong suds of washing powder or soda. Follow with Wetordry Flint Paper, dipping frequently in the suds. Finish with sponge and clean water. Best results are obtained with less effort where the paper is mounted on the Wetordry Varnish Rubbing Pad. Grit numbers will vary from No. 2 to No. 1/2, depending on the conditions of floor sanded. Use very much the same, with possibly a finer grit, on stairways, doors, casings and other Woodwork. Where the surface is uniform, paper may be mounted on the Wetordry Rough Stuff Rubbing Block with possibly greater speed and regularity as the result.

In two laboratory tests of Wetordry against steel shavings, twenty to thirty per cent was saved in time by the use of Wetordry, and a better finish produced. The report states that this improvement in finish was very preceptible.

### ON VARNISH AND ENAMEL

**USE PLENTY OF WATER.** Mount paper on Wetordry Varnish Rubbing Pad both to avoid waste and also to insure the utmost uniformity in cutting.

Wetordry Flint Paper in grit numbers 2-0 and 3-0 is recommended for interior finishing work where pumice has been used heretofore. It eliminates dust and leaves no slush. **On enamel always sand lightly and keep grit wet.**

### FURNITURE FINISHING

Probably every furniture manufacturer has had to contend with the fine white lines which show up some little time after the piece has been rubbed with pumice. Substituting for pumice the very fine grits of Wetordry Garnet Finishing Paper with pad and water absolutely eliminates this. 7-0 always gives a wonderful finish. 6-0 gives an equally good finish on some kinds of varnish but proves unsatisfactory on others. Oil can be used in place of water if desired and gives a dull finish instead of a polish. Wetordry is much more rapid than pumice.

# RED SPOT PAINT & VARNISH COMPANY

## BRILLO

The construction of BRILLO is of soft steel fibres made in a manner so as not to injure the most delicate hands, combined with a cake of soap made of purest vegetable oils and polishing ingredients.

BRILLO is endorsed by all leading manufacturers of aluminum cooking utensils and by all leading cooking institutes as the most simple, economical and effective cleanser thus far produced.

### BRILLO LARGE 25c Size:

## EXTENSION AND SINGLE LADDERS WITH AUTOMATIC HOOKS

**LUMBER:** (Western Spruce and Norway Pine.) The sides or rails are made from light, clear selected stock, bored mechanically correct for rounds and measure  $1\frac{1}{2} \times 2\frac{1}{4}$  inches finished, both top and bottom sections.

**RUNGS:** (Hickory, Creosoted Ends). Clear, second growth, straight grained HICKORY, smoothly finished to  $1\frac{1}{2}$  inches in diameter, and 12 inches apart.

**CASTINGS:** Top guides made from wrought forgings with roller guides. This allows top section to be extended freely.

**AUTOMATIC HOOKS:** Are made from soft malleable iron, self balancing, simple in construction and work automatically. All castings finished in aluminum.

### Length of Sections.

## TILLEY'S WINDOW JACKS

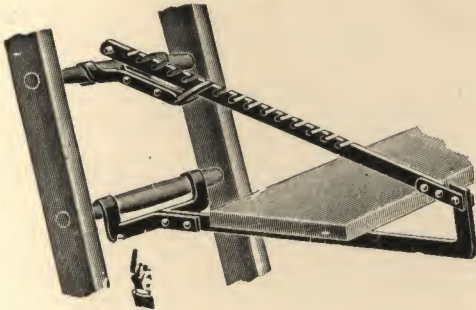

Price Each .....\$17.00

# RED SPOT PAINT & VARNISH COMPANY

## REVERSIBLE AND ADJUSTABLE LADDER BRACKETS

No. 600

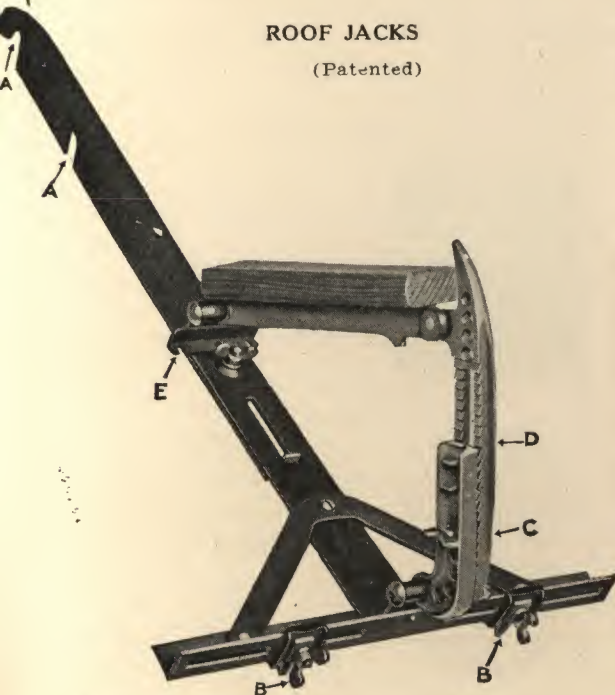

Showing bracket in hanging position on outside of ladder.

The beauty of this bracket is—aside from the reversible feature—that it can't tip or tilt with you if the strain happens to be taken off the supporting part for a moment. It is always perfectly rigid yet is instantly and easily adjustable to any desired position. Works equally well rightside up or upside down, and is absolutely safe in any position—only the highest grade of steel is used and perfect workmanship is insured by rigid inspection.

Per pair, weight 16 pounds per pair .....\$6.00

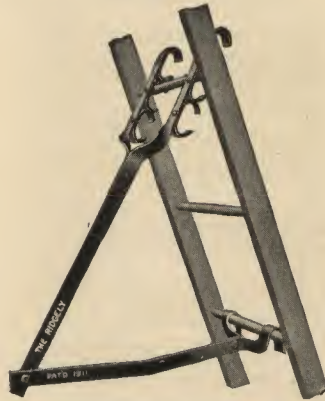

## ROOF JACKS

(Patented)

Price, per pair .....\$12.50

## RIDGLEY LADDER JACK No. 603

This Jack can be worked on the under side of ladder as well as on top. Has no bolts to remove or ratchets to lift. Can be folded up snugly, when not in use, without pinching fingers.

Per pair .....\$6.50

## NELSON'S EXTENSION BRUSH HOLDER

Holds paint or kalsomine brush, is easily adjusted and remains rigid at any angle. Reaches the difficult places, saves much dangerous climbing and thus prevents many an accident.

Price, per doz. ...\$22.00

Each ..... 2.20

Instantly Adjustable to Any Desired Angle May be Attached to Handles of Any Length

## SEAMANS SAFETY LADDER APPLIANCE

A support used on the top end of a ladder to make painting more convenient. It will be found handy in working over window openings, etc.  $\frac{5}{8}$  in. round arms,  $\frac{3}{8}$  in. thumb screws. Flange  $\frac{1}{4}$  in. x  $1\frac{1}{2}$  in. Weight  $3\frac{1}{2}$  lbs. each. Span 42 in., holds ladder out 14 inches.

Price per pair.....\$10.00

# RED SPOT PAINT & VARNISH COMPANY

## RUTLAND PATCHING PLASTER

For mending small breaks and cracks in walls. It sets slowly, like ready mortar. It does not shrink. It does not require shellac or other coatings to prevent absorption and spotting through paint. Contains no chemical.

## GOTHIC "COLD WATER" DRY PASTE

Gothic "Cold Water" Dry Paste is quickly made ready for use, in whatever quantity or consistency the job requires, by simply stirring the powder into COLD WATER—no cooking or steaming necessary. Makes a smooth, white, pearly liquid paste that holds its body. Does not set too soon, but allows paper to slide easily before drying. Has extensive covering capacity. Two and one-half pounds of the powder makes a bucket of paste when mixed. Does not discolor delicately tinted papers. Used by progressive decorators everywhere as the most up-to-date, improved paste. Economical, Convenient, Sanitary. An excellent retail item for the Dealer.

## ROCK HARD PUTTY

A crack and crevice filler. The putty comes put up in a round one-pound paste board container. It is in the powder form. To use, mix with water and work up to about the consistency of putty and work into cracks with a putty knife.

# SAVABRUSH

PATENTED

## Cleans Old Brushes

Get a package of Savabrush today, renovate your old brushes and have them ready for use when needed.

### DIRECTIONS FOR USING SAVABRUSH

Dissolve the contents of one pound package in two quarts of warm water, then add four quarts of cold water.

Soak brushes in solution from eight to thirty-six hours or as long as necessary to thoroughly loosen the paint or varnish. Wash in the usual way, with soap and warm water.

**CAUTION**—(Dry brushes thoroughly before using).

When dry, rinse in benzine or turpentine to straighten the bristles.

Do not make solution quite so strong for cleaning Sable, Badger, Bear hair brushes, or White Bristle brushes.

Package 2 dozen in case

½ lbs., per dozen ..... \$ 6.30  
1 lbs., per dozen ..... 10.50

## SHINO FLOOR POLISHER

The Shino Floor Polisher is made of long, soft, gray yarn and can be used in dusting the floors, without marring or scratching the furniture or woodwork. It can be washed with perfect satisfaction without injuring the yarn in the least.

Per Doz. Each  
Price .....\$24.00 \$2.50

## SHINO CHEMICAL MITTEN DUSTER

The Shino Mitten Duster is made of soft, fluffy yarn—Chemically prepared to absorb the dust and polish at the same time, and can be used on the most highly finished surface without danger of scratching or marring.

Fits on the hand like a glove. Dusts, Cleans and Polishes in one operation.  
Per Doz. Each  
Price .....\$8.50 \$1.00

# RED SPOT PAINT & VARNISH COMPANY

## OLD ENGLISH WAX

For more than a quarter of a century Old English Wax has maintained the highest standard of quality. It imparts a more beautiful and lasting finish, and has greater covering capacity than other prepared waxes on the market. It is the standard polish for floors, wood work, furniture, automobiles, linoleums and leather goods. Made in paste form only:

One pound covers 300 square feet.

## OLD ENGLISH AUTOMOBILE WAX

Per Doz.

Packed 12 5½-ounce cans to carton.....\$7.00

## OLD ENGLISH BRIGHTENER

The only product on the market that cleans and polishes a waxed floor without removing the wax. It leaves a light film which polishes beautifully, protects against heel marks and scratches, and makes the finish last twice as long. Is good for all floors and wood work, whether waxed, varnished or shellaced. Particularly good for polishing furniture. Contains no oil, so will not collect dust, discolor the wood, or soil rugs.

One quart cleans and polishes 2,500 square

## BOYLES STOP CRACK

A crack filler which is also a germicide—contains a disinfectant which is sure death to germs. Dries hard and will not shrink nor fall out.

	1-Lb. Cans	5-Lb. Cans
Per Pound .....	\$0.50	\$0.46

## OLD ENGLISH WAXER-POLISHER

Not a weighted floor brush, but a new, successful device that not only does the work of the weighted brush, but also applies the wax to the floor. It saves time, wax and labor; makes it very easy to keep polished floors in perfect condition. It is simple, practical, and lasts a lifetime. Awarded certificates of approval, after thorough tests, by Good Housekeeping Institute and the New York Tribune Institute.

A free can of wax is packed with each waxer-polisher. There is also a coupon which entitles each purchaser to one pint of brightener.

### PAPERHANGERS' SHEARS

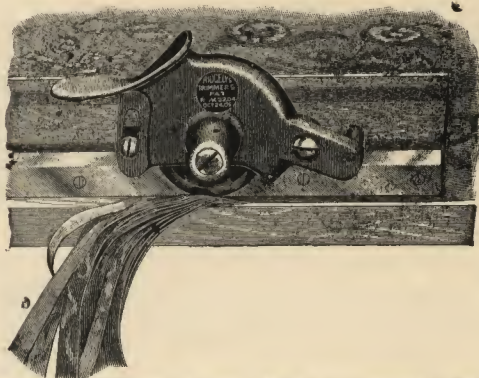

Compton's No. 85

No. 85. Bent handle. Finish black japanned handle and polished nickel blade.

	Per Doz.	Each
14 inch .....	\$62.56	\$5.80

### THE IMPROVED RIDGELY TRIMMER, MODEL D

The superiority of the Model D Trimmer, even in an illustration, is so apparent that argument is hardly necessary. When we added the extension nose feature to a trimmer that was already the recognized standard because of its quality and accuracy, we put the Ridgely in a class by itself. BE SURE YOU GET THE GENUINE.

Model D Ridgely—you can identify it by the "Quality Mark" stamped on each trimmer and straight edge.

These prices include what we term an outfit which consists of a trimmer, straightedge and zinc strip, and the straightedges are ruled.

#### Outfit with No. 10 Steel Center Edge.

## RULED STEEL CENTER TRIMMER OR KNIFE EDGE

No. 10—Brass bound, strip of steel, 1½ inches wide by 1-16 inch thick, nickel plated. Set flush in the wood. Can't be made better. Average weight, 5 pounds.

	6 Ft.	7 Ft.	8 Ft.
Each .....	\$9.00	\$10.00	\$11.00

## FOLDING TRESTLES

Marvel of carrying strength and folding simplicity.

Nickel plated trimmings, weight 4½ pounds per pair.

Per pair .....\$4.50

## BOX FOLDING PASTE BOARD

No. 304

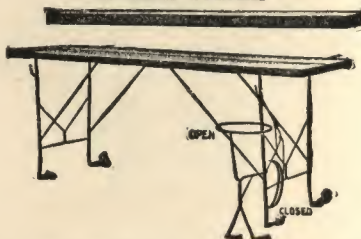

This board is 24 inches wide when open and folds 8 inches wide by 2 inches thick, with space inside for straight edge and tools. Made of best air-dried lumber, thoroughly seasoned, with good strong hinges and handsomely finished.

	6 Ft.	7 Ft.	8 Ft.
Each .....	\$6.00	\$6.50	\$7.00

## FOLDING PASTE TABLES

A folding table is a big convenience if it works right, and a big nuisance if it works wrong. We've got ours figured out right, and they are not only the most compact of all folding tables when ready for carrying, but are also the most rigid of all when ready for use. They combine extreme lightness with extreme strength because we have taken the trouble to find out what kind of materials to use, and where to put them. These tables are giving perfect satisfaction wherever used.

### STEEL TABLE

No. 315—Everything made of steel except the top; is handsomely finished and goes the limit in durability, 33 inches high, 22 inches wide, and folds as per top cut to 11 inches wide. Average weight 21 pounds. Hooks for straightedge riveted to each table and included in the price. Place inside for straightedge and tools, the same as in wood table.

No. 315 Steel Table, including hooks, but without bucket holder.

	6 Ft.	7 Ft.	8 Ft.
Each .....	\$12.50	\$13.00	\$14.70

No. 17—2-inch Maple, flat face .. .80  
No. 11—1-inch Maple Roller, flat face ..... .70

## RIDGLITE SEAM ROLLERS

### Don't Flash or Polish the Seam

What is Ridgelite?—It's a patented compound melted under intense heat and molded around the steel.

All Ridgelite seam rollers are knurled, which stops all the flash and prevents polishing the seam.

All axes are molded in roller which prevents loosening.

Water has no effect on Ridgelite, either hot or cold.

Nos. 1, 2, 4, 5, and 6 have 1¼" face roller. Nos. 14 and 15, 2" face.

## BORDER CUTTER

No. 23—As illustrated. Has a turn cap screw for removing blade, which is of extra tempered steel and will hold a sharp edge a long time.

	Per Doz.	Each
No. 23 .....	\$15.00	\$1.50
Extra Blades .....	2.80	.50

## POUNCING WHEELS

No. 22—Tempered steel wheels for making finest pounces. Will turn in  $\frac{1}{4}$ -inch circle, wheels,  $\frac{1}{4}$  or  $\frac{1}{2}$  inch in diameter, desired. Specify size wanted when ordering.

Each .....	\$1.50
------------	--------

## BORDER CUTTER

No. 24—Exactly the same as No. 22, except the wheel is solid like a glass cutter instead of serrated. By using a zinc sheet to cut on, will do very rapid work. Wheels made of best steel tempered and ground, and will do clean sharp work, with no feathered edges. Used for cutting out crowns, borders, wall designs, stencils, etc.

No. 24 .....	Each \$1.00
--------------	-------------

## No. 412 MAT KNIFE

Handle and blade illustrated separately. Handle is round, plain maple; blade tempered steel,  $\frac{3}{8}$  inch by  $4\frac{1}{2}$  inch.

	Per Doz.	Each
Knife, complete .....	\$21.20	\$2.00
Handles, only .....	15.00	1.50
Blades, only .....	5.60	.50

## STENCIL CUTTING KNIFE

No. 21—Hand forged, tempered steel blade, 5 inches long, with brass holder.....	Each \$1.20
Extra blades .....	.40

## MOULDING SCRAPERS

No. 30—Bevel edge, forged blade, steel shaft riveted to maple handle. Nine inches long. For use in burning off work—the long handle protects the hand from the heat of the torch. Made in the above shapes.

In ordering, specify which you prefer. We fill all orders with style "A" unless otherwise instructed.

	Per Doz.	Each
Price .....	\$15.60	\$1.50
Separate Blades, any of above styles.....		.50

## COMBINATION PLUMB AND LEVEL

No. 2—Gives not only plumb and level, but verifies any angle desired. Made of highly polished brass, 4 inches long by 2 inches wide, and has large graduations. Can be used on any straight edge; you simply snap it on and the spring marked "2" in the cut holds it firmly. No screws to fuss with. Any graduation for panel or relief work obtained instantly by moving bubble pointer marked "4" in cut, then setting it by means of set screw "5."

Per dozen .....	\$43.40
Each .....	4.00

## PAPERHANGERS' KNIVES

Knives cost so little that many paperhangers do not think it worth while to be particular what kind they get. You will find it pays to see that you get genuine RIDGELY Knives when you buy, however. The saving due to RIDGELY durability may not appeal to you, but there is a lot of satisfaction in using a knife that will hold a smooth cutting edge without being sharpened every other cut.

All knives shown here have blades of best quality steel tempered with natural gas, drawn in oil, highly polished and ground to a sharp edge. They are made to last and they do last, as any user will tell you. You can always identify the genuine by the trade mark.

No. 01

No. 02

No. 4

Nos. 1 and 01—The standard size knife and our favorite; there is nothing equal to it on the market. Blade is  $3\frac{3}{8}$  inches long by  $1\frac{1}{8}$  inches wide, made of high grade steel and taper rolled from ferrule to point, giving flexibility to the point and making the blade easy to keep sharp. French polished handles and closed ferrule. Round or square point as desired.

No. 02—(Square Point) and No. 2 (Round Point)—Blade  $3\frac{3}{8} \times 1\frac{1}{8}$  inches, highest grade steel, but not taper rolled. Stained maple handle. Excellent value.

No. 3 (Square Point) and No. 03 (Round Point)—A small knife that cuts like a razor;  $3\frac{3}{8} \times 1\frac{1}{8}$  inches, taper rolled blade, maple handle.

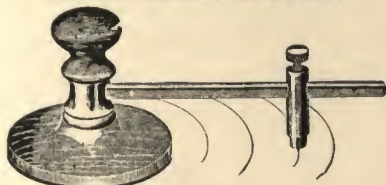

No. 4—A larger blade,  $3\frac{3}{8} \times 1\frac{1}{8}$  inches, taper rolled, best steel, white maple handle, same quality as No. 1.

	Per Doz.	Each
Nos. 1 and 01.....	\$8.50	\$1.00
Nos. 2 and 02.....	8.00	.80
Nos. 3 and 03.....	7.50	.90
No. 4 .....	9.50	1.20

# RED SPOT PAINT & VARNISH COMPANY

## CIRCLE GLASS CUTTERS

## CRESCENT BRAND MAT AND COATED BOARD

Eighty-five per cent. of a display card is the display itself. It is of prime importance that boards be used of sufficient thickness and stability to give the show cards a rigid body and appearance.

The selection of the cardboard for background color is, of course, of primary importance.

Mat and cardboard manufacturers have in the past ten years made rapid progress in developing their lines to a large extent in range of colors, finishes, sizes and thicknesses to meet the exact needs of sign contractors and display men. The manufacturers have gone so far in a number of instances as to even develop their lines into specific sections of special boards for advertising purposes, whereas in years previous the mat

board lines particularly were constructed for the picture frame and photographic trades.

Manufacturers of mat and cardboards are devoting most of their attention to the sign and advertising field, distributing sample books liberally on request and rendering other co-operation and attention to the sign trade.

There have also been many unique additions in colors and finishes to the lines of the manufacturers, which all in all merits the most favorable consideration of every sign contractor and display man in the industry. A tour throughout the country to the very best stores, theatres and wherever up-to-date displays appear will be found a general make-up of cardboard signs in many harmonizing color effects and finishes of mat board.

## DESCRIPTION OF GOLD LEAF

### HASTINGS XX GOLD LEAF

22½ karat. (Sometimes called "Deep," "Orange" or "Loose" Gold.) This leaf is the best quality on the market, being the deepest in color, as it contains less alloy than any other leaf. XX Gold Leaf will not tarnish. Some manufacturers have tried to market XXX or XXXX Leaf, giving the impression that this is a better quality than XX, which, however, is not the case, it merely being a term used to deceive the buyer.

Hastings XX, per book of 24 leaves.....	\$ 1.50
Hastings XX, per pack of 20 books.....	27.00

### HASTINGS PATENT XX GOLD LEAF

22½ karat. (Sometimes called "Transfer" or "Outdoor" Gold.) This is the same karat and color as XX and Glass Gold Leaf. It is adhered to a small piece of white tissue paper for use when gilding has to be done outdoors in the wind, where the XX (Loose) Gold could not be handled, thus doing away with the necessity for awnings. The saving by using our Patent Gold for gilding in the wind is very large.

XX Patent, per book of 24 leaves.....	1.60
XX Patent, per pack of 20 books.....	25.00

### HASTINGS USUAL GOLD LEAF

18 karat. (Sometimes called "Lemon," "Light" or "Green" Gold.) This leaf having so much more alloy in it, is much lighter and more greenish in color than XX. It will not retain its color indefinitely outside, as the XX will, due to the silver alloy which tarnishes.

Usual Gold Leaf, per book of 24 leaves....	1.40
Usual Gold Leaf, per pack of 20 leaves....	26.00

### HASTINGS PALE GOLD LEAF

16 karat. The same remarks that apply to the Usual Leaf apply to the pale, excepting that there is more alloy in it and that it is lighter in shade.

Pale Gold Leaf, per book of 24 leaves.....	1.30
Pale Gold Leaf, per pack of 20 books.....	25.00

### HASTINGS SILVER LEAF

For use on Glass. It is 3¼x3¼ inches square. 500 leaves to the Pack, each Pack containing 20 Books of 25 leaves each.

Silver Leaf, per book of 25 leaves .....	.50
Silver Leaf, per pack of 20 books .....	7.00

### HASTINGS ALUMINUM LEAF

For use on all signs where silver color is desired, except on glass. This Leaf comes 5x5 and 5¼x5½ inches. A Pack contains 500 leaves, the same as Gold Leaf, but sometimes there are only 10 Books of 50 leaves each to the Pack instead of 20 Books of 25 leaves.

Aluminum Leaf, per book of 50 leaves.....	\$ .50
Aluminum Leaf, per pack of 20 books.....	7.00

## THE ART OF SIGN PAINTING

By F. H. Atkinson.

Large Quarto,  
356 Pages, Illustrated.

Cloth with Cover Design Stamped in Five Colors.

Price .....\$7.00

This book embraces a series of instructions written and illustrated in a practical manner. It contains lesson sheets and review questions, ninety-six designs in complete composition, with color note for each; 160 pages of practical text matter, and 75 alphabets. As an every-day reference book for active sign painters, it stands alone—replete with color schemes, color notes and color composition. This revised edition contains an outdoor display section with text and thirty-two new layouts.

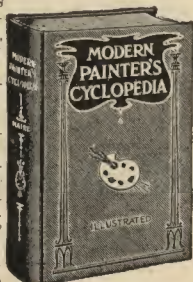

## MODERN PAINTER'S CYCLOPEDIA

1918 Edition. Cloth, price .....\$3.50

The more important subjects treated in this book are: Adulteration of paints, blistering, brushes, calcimining, carriage painting, china painting, colors, color harmony, color mixing, testing, estimating, exterior painting, enameling, flattening, fresco painting, gilding and bronzing, glazing, graining, house painting, marbling, oils and dryers, paper hanging, sign and scene painting, stains and staining, stenciling, varnishes, "vehicles," water colors.

In addition to the text matter, questions bringing out the important points are appended at the end of each chapter. A complete index makes the book especially valuable for quick reference.

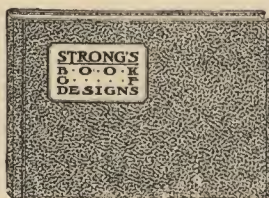

## STRONG'S BOOK OF DESIGNS

By Chas. J. and L. S. Strong.  
(Revised Edition).

Large Quarto,  
8x11 inches, 200  
Pages, Over 300  
Designs.

Leatherette,  
Gold Stamping.  
Price .....\$7.00

This book is the most elaborate of its kind ever published. Over 300 designs are printed in from two to twenty-four different colors. The several divisions of the book include poster, book cover, ribbon, pen and ink designs, also tinted air brush, flowers and ornamental designs, ideas for show cards, new and original alphabets, many of which are in colors, sign ends and hanging signs, letterheads, business cards, scrolls and panels—the whole constituting a masterpiece of ornamental art of the highest value to the sign painter, card writer and commercial artist.

## PAINTING BY IMMERSION AND BY COMPRESSED AIR

Price Postpaid \$8.00  
By A Seymour Jennings

## A SHOW AT SHO' CARDS

By F. H. and G. W. Atkinson.

Size 9x12, 300 Pages, 120

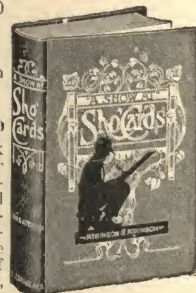

Designs, 35 Alphabets.

Cloth with Cover Design  
Stamped in Three Colors.

Price .....\$7.00

A practical instruction book for Card Writers. In a clear and concise manner it presents all that can be desired in method, execution and design, as practiced in up-to-date show card studios. The book is rich in suggestions of ways of producing novelties, of materials used in producing unique effects, gives all the popular card-writing alphabets and a large list of phrases for inscriptions.

This book embodies the results of twenty-five years' experience in designing, sign and pictorial painting. It meets the needs of experienced card writers as well as the student.

## NEW STENCILS AND THEIR USE

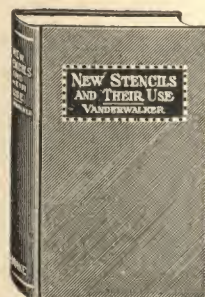

By F. N. Vanderwalker

12 mo. 148 Pages, Illustrated.

Cloth, Ink Stamping.

Price .....\$2.50

This book is an orderly presentation of the essentials of good stencil work and covers the latest styles and methods for homes, churches, lodge halls and small theatres. It is neither too technical nor yet too artistic in its method of treatment. The following chapter headings show the scope of the work: The Value, Use and Abuse of Stencil Decorations; Classification and Selection of Stencils; Stencil Making; Colors and Color Harmony; Working Operations; Some Good Jobs Illustrated; Ceiling, Floor and Fabric Stenciling; Lining and Striping.

## AUTOMOBILE PAINTING

By F. N. Vanderwalker.

12 mo., 200 Pages, Illustrated. Cloth Price \$2.50

This new book covers the subject in great detail from the viewpoint of the car owner, the garage repair man, and the house painter who wishes to enter the field as an off-season business. Definite answers to all specific questions which naturally arise in the mind of one not familiar with the work are given in a clear and simple way. The painting of new cars and the repainting of old ones by several different methods are fully covered. Tools and materials are described and illustrated. Working methods for priming, surfacing, rubbing and varnishing are made perfectly plain. Factory processes in spraying, dipping, flowing-on and baking are discussed. The subjects of other chapters are: Carriage and Wagon Painting, Initials and Monograms, Color Schemes and Automobile Paint Shop Plans.

## METAL COLORING AND BRONZING

By Arthur H. Hiorns.  
Price Postpaid \$4.50

## RED SPOT PAINT & VARNISH COMPANY

### ESTIMATES, COSTS AND PROFITS—HOUSE PAINTING AND INTERIOR DECORATING

By F. N. Vanderwalker

12 mo., 133 Pages, 14 Illustrations.

Clothing, Ink Stamping.  
Price .....\$3.00

This new edition furnishes every detail needed to estimate on painting and decorating. It shows how to figure a profit on every job. It includes chapters on overhead cost, paint shop management, and shows a plan for a modern paint shop. Other subjects treated in detail are: Capacity per gallon of Paint, Varnishes, Enameling, Shellacing, Size and Filler, Calcimining, etc., on various surfaces. It shows the correct way to figure prices per square or square foot for painting; prices other contractors charge for various kinds of painting and decorating. The author's connection with the Paint Information Bureau of the Carter White Lead Company gives him inside information on all these points which are essential to the success of every painter.

### NEW HARDWOOD FINISHING, INCLUDING WOOD MANIPULATION, STAINING AND POLISHING

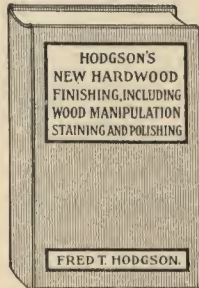

By Fred T. Hodgson.

12 mo., 320 Pages, 117 Illustrations.

Cloth, Ink Stamping.  
Price .....\$3.00

This book is arranged in two parts. Part I gives rules and methods for working hardwood, with description of tools required, the methods of using, and how to sharpen and care for them, including saws, planes, files, scrapers, chisels, gouges and other wood-working tools.

Part II treats on the filling, staining, varnishing, polishing, gilding, enameling and finishing all kinds of woodwork. It also treats on renovating old work, re-polishing, re-varnishing and wood finishing generally.

### SCENE PAINTING AND BULLETIN ART

By F. H. Atkinson.

Size 9x12, 256 Pages, Fully Illustrated.  
Cloth with Cover Design Stamped in Five Colors. Price .....\$7.00

### THE SIGNIST'S MODERN BOOK OF ALPHABETS

By F. Delamotte.

Large Octavo, 200 Pages, 100 Designs.

# RED SPOT PAINT & VARNISH COMPANY

## OIL STORAGE TANK

Made of heavy galvanized iron; swaged body, double seamed and soldered; extra wood bottom in addition to metal bottom; wide blue stripe top and bottom; top also finished in blue enamel; stenciled "OIL TANK"; heavy tin hood, strongly hinged on back; removable tin pump, double seamed and soldered, with coppered steel wire plunger rod, with wood grip; removable perforated basin.

Length of pump, 39 inches; diameter of pump, 1 1/4 inches; 1 1/4 inch spout; diameter, 24 inches; height not including hood, 31 inches; capacity, 60 gallons; height, over all, 41 inches; weight, each 32 pounds. No. 7760. Each.....\$16.00

## SPRAYER

Pump cylinder measures 14 1/2 inches in length by 1 1/4 inches in diameter.

This sprayer is adapted for all kinds of spraying, more especially disinfectants. The arrangements of the tube are such that it thoroughly breaks up or atomizes all oils or solutions into a fine mist-like spray, which penetrates all cracks and crevices. Most excellent value.

Per dozen .....\$9.00

## GASOLINE STORAGE TANK

Made of heavy gauge galvanized iron, painted red and stenciled "GASOLINE"; swaged body, double seamed at bottom; extra wood bottom in addition to metal bottom; 4-inch tin screw filler cap with handle to facilitate turning. The "lever lock" is made of cast brass; the lever can be locked down with an ordinary padlock, thus eliminating the danger of theft.

Capacity, 60 gallons; weight, 30 pounds; diameter, 24 inches; and height, 31 1/4 inches. No. 7690. Each .....\$14.00

## BINK'S SPRAYING MACHINES

The spraying machines illustrated herewith represent the recognized standard of value and quality in the way of Whitewashing and Painting Machines. Each machine is furnished complete with all necessary spray hose, suction hose, spray pipe, valve, nozzle and otherwise complete ready for operation.

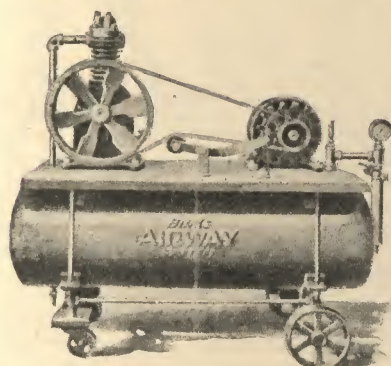

Styles A, B, C and D

Style E

Style F

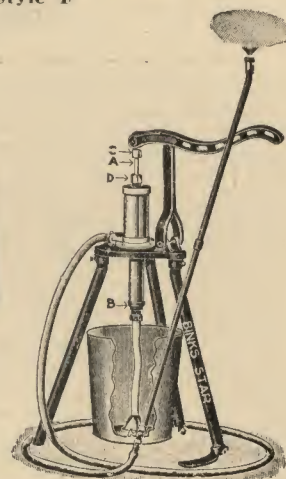

No. 101 Complete

Style "A", "B", "C", "D"

No. 100

Style J

Style No. 100

Large in capacity, very durable in construction, extensively used by railroads, packing plants, contractors and industries of all descriptions that have a large amount of work to perform.

Styles B, C and D, not illustrated, are constructed along the same excellent lines as Style A, but smaller in capacity.

### Style "E"

Furnished complete as illustrated ready for operation, equipped with a 30-gallon galvanized steel tank and sweep agitator which operates at each stroke of the pump handle, mounted on heavy truck platform, equipped with our Style C machine.

### STYLE "F"

20-gallon galvanized steel tank mounted on large iron wheels, easily transported about.

### Style "J"

The most popular spraying machine on the market. Adapted for all spraying purposes, exceptionally well constructed with all brass pumping parts and air chamber. For use with any bucket, (bucket not furnished) or longer suction hose may be added and used in connection with a barrel or other receptacle.

Adapted for applying all paints, varnishes, enamels, lacquers, bronzing liquids, etc. The many uses it can be put to are practically unlimited. It is used extensively for applying the above materials to wicker furniture, toys, picture frames, mouldings, signs, etc., and is the best constructed and most simple spray brush made. This brush is furnished complete with 8 ft. of air tubing, one pint copper cup and aluminum adapter ring for use with either pint or quart mason jars.

# RED SPOT PAINT & VARNISH COMPANY

## SANITAS THE SANITARY WALL COVERING

### ADVANTAGES OF SANITAS

The method of manufacture forms a dense, non-porous paint surfacing thoroughly incorporated into the cloth so that the face does not fade, chip or peel from the backing. Being non-porous, soil incidental to use is easily wiped off with a damp cloth or removed by the same method as in cleaning paint. The paint face is impervious to moisture, steam, etc. and will not absorb household odors.

### SANITAS STANDARDS OF MEASUREMENT

Sanitas Modern Wall Covering is made in 12-yd. rolls, 48 in. wide, each roll containing 144 sq. ft. or 16 sq. yd. One of these rolls covers the same superficial area as 4 single rolls of wall paper.

### ENAMEL TINTS

Made in smooth, glossy glaze finish and are equivalent in appearance and finish to a high grade enameled wall or ceiling; much lower in cost and upkeep expense and superior in wall protective ability.

### Solid Colors

	Per Stick	Per Single Roll
4320 White	\$8.80	\$2.40
4324 Ivory		
4326 Cream		

### ENAMEL PRINTS

Tiling and mosaic designs printed in oil colors on glazed tint backgrounds; used largely in butcher, grocery and delicatessen stores, kitchens, baths, butler's pantries, etc.

	Per Stick	Per Single Roll
4526 Blue and White	\$8.80	\$2.40

4541 Gray		
4546 Blue and White		
4548 Blue and White		
4549 Blue and White		
4551 Multi Color		
4560 Blue and White		

### PLAIN TINTS

Made in plain colors, eggshell gloss finish; used where a plain wall or ceiling effect is desired as in hospitals, stores, offices, public and business buildings.

### Solid Colors

	Per Stick	Per Single Roll
4032 White	\$8.80	\$2.40
4037 Cream		
4049 Ivory		

### DECORATIVE PRINTS

Made in designs suitable for living rooms, libraries, halls, dining rooms, bedrooms, etc. The designs being printed in oil colors, may be kept perfectly clean and sanitary by wiping off with a damp cloth.

	Per Stick	Per Single Roll
4112	\$9.60	\$2.60

#### Explanation

One "stick" of Sanitas is equal to four single rolls of wall paper in covering capacity.

# RED SPOT PAINT & VARNISH COMPANY

## GENUINE GOLD LEAF READY MADE WINDOW LETTERS, NUMBERS AND SCRIPTS

These all have lead foil metal backs, are put on the inside of the glass and are not affected by heat, cold, steam or frost, thus making the most durable kind of signs. They may be put on at any time of year.

All the Letters, Numbers, Scripts, Trade Emblems and Stripes listed on this page are made from GENUINE GOLD LEAF. Thus made they will not tarnish but on the contrary remain bright for years on windows, glass doors, glass panels, etc.

### GENUINE GOLD LEAF, SHADED BLACK, LETTERS AND NUMBERS

#### STYLE 22, FRENCH ROMAN SPUR

Style 22 is the most artistic and most largely used style of Sign Letters and Numbers. It gives the nearest approach in appearance to genuine gold leaf sign work done by Sign Artists by hand on windows and glass doors.

A combination of our Script Lettering and our Style 22 french roman spur letters makes the most artistic kind of Signs ever put on a window.

## JANITOR'S SCRUB "S"

Code No. 32. Genuine palmetto, length of  
stock 2 inches. Size of block 3 x 12 inches. Two  
staff holes.

Per Doz. Each  
Price .....\$24.00 \$2.50

All Brushes Ordered in Less Than Quarter Dozen Lots Will Be Charged at Each Price.

## No. 78—HEAVY SCRATCH OR SCRUB

### Round Wire.

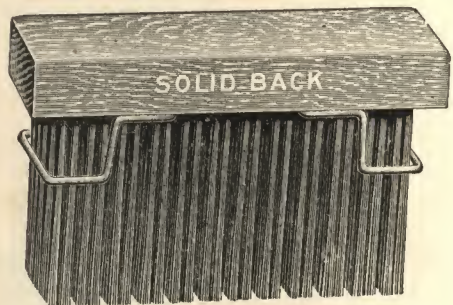

No. of Rows	Gauge of Wire	Size of Back	Length of Wire	Wires in Each Hole
6x16	30	2 1/2 x 7 1/2	1 3/4	56

Packed one dozen in a box.  
This brush is extra heavy filled (but with fine wire) which makes it the best thing made for cleaning discolored stone or brick or any other rough work.

In our Solid Back every tuft of wire is riveted separately in each hole. If one should break, that's all, not a whole row drop out like other brushes.

Per dozen .....\$12.00  
Each ..... 1.10

## No. 53—FOUNDRY OR CASTING BRUSH

### Flat Wire.

No. of Rows	Gauge of Wire	Size of Back	Length of Wire	Wires in Each Hole
5x12	060x017	7 1/2 x 2 5/8	3	10

For protected ends, as per illustration, add 25c per dozen to list prices. They protect the wires from flaring out at ends. Always specify if protected ends are wanted, otherwise shipped without.

The shorter wires are especially adapted for scouring stone and metallic surfaces, such as boilers, engines, etc., and particularly useful for removing paint blisters from structural steel work that has been in use a long time.

The less wire in a brush the less the price, don't compare our 10 wire to hole to some one else's 6 or 8; get our prices for less wire.

Per dozen .....\$ 9.70  
Each ..... .90

# RED SPOT PAINT & VARNISH COMPANY

## No. 370—WIRE BRUSHES Curve Back.

No. of Rows	Gauge of Wire	Round Wire. Size of Back	Length or Wire	Wires in Each Hole
9x22	33	2 7/8 x 7 1/4	1 1/4	30

The curve face concentrates the resistance into one place (the center) producing more rapid results than a flat surface.

These brushes can be used in place of No. 6 or No. 1 sandpaper, and are extensively used by painters, furniture makers, etc.

Packed one dozen in a box.	Per Doz.	Each
	\$12.00	\$1.10

## No. 360 SHOE HANDLE

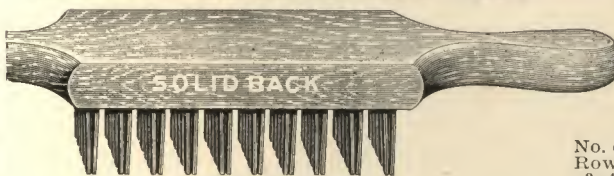

No. of Rows	Gauge of Wire	Round Wire. Size of Back	Length or Wire	Wires in Each Hole
4x14	33	4 3/4	1 1/4	40

Packed one dozen in a box.

For sanding and cleaning mouldings and narrow surfaces.

	Per Doz.	Each
4 Row	\$6.00	\$0.60
2 Row	5.00	.50

## No. 20—TWO HAN DLE BUTCHERS' SCRUB

Heavy Flat Wire.

No. of Rows	Gauge of Wire	Size of Back	Length or Wire	Wires in Each Hole
5x10	120x017	7 1/2 x 2 1/2	1 1/4	6

Per Doz.	Each
\$10.00	\$ .90

## No. 16—BUTCHERS' SCRUB

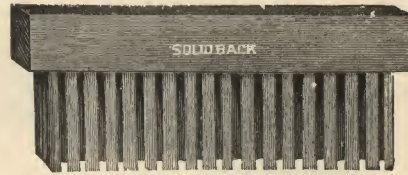

No. of Rows	Gauge of Wire	Size of Back	Length or Wire	Wires in Each Hole
5x10	120x017	7 1/2 x 2 1/2	1 1/4	5

One of the largest sellers in wire brushes.

Per Doz.	Each
\$6.00	\$ .60

All Brushes Ordered in Less Than Quarter Dozen Lots Will Be Charged at Each Price.

## No. 368—WIRE BRUSHES Painters' Scrubs.

No. of Rows	Gauge of Wire	Round Wire. Size of Back	Length or Wire	Wires in Each Hole
6x19	28	2 1/4 x 7	1 1/4	20

Packed one dozen in a box.

For cleaning up and removing blisters, etc., on outside work before painting. Also for sanding down old paint or varnish on finished wood work. Does much faster and smoother work than sandpaper.

	Per Doz.	Each
Price	\$ 8.00	\$ .80

## No. 79—SCRUB AND SCRAPER COMBINED

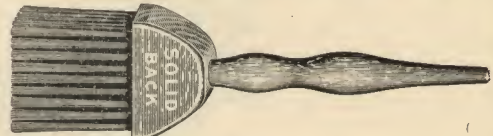

No. of Rows	Gauge of Wire	Size of Back	Length or Wire	Wires in Each Hole
4x10	28	11x1 1/2	1 1/2	50

Packed one dozen in a box.

A tempered 3-inch scraper firmly attached greatly assisting in preparing rough outside work for repainting, also in floor work when using removers of any kind.

Per Doz.	Each
\$14.40	\$1.30

## No. 12—BUTCHER AND MACHINE DUSTER

No. of Rows	Gauge of Wire	Round Wire. Size of Back	Length or Wire	Wires in Each Hole
3x12	33	4 1/2 x 1 1/4	2 1/2	40

Packed one dozen in a box.

A fine bench tool for use on drill presses, etc., and a grand butchers' block duster.

Per Doz.	Each
\$9.00	\$ .90

## No. 7—BENT HANDLE

No. of Rows	Gauge of Wire	Round Wire. Size of Back	Length or Wire	Wires in Each Hole
4x10	30	6 1/2 x 14	1 1/4	22

Packed one dozen in a box.

A brazier's cleaning brush, also effective for cleaning crevices, grooves, mouldings, etc.

2 Row	\$5.00	\$ .50
3 Row	6.00	.60
4 Row	7.00	.70
